***Required Specifications**

For a Bottom Crust Forming Die Set: 1) The pan manufacturer's name and the pan's stock number, 2) A choice of Rim Style (i.e. Plain rim, Gear rim, High Frequency Gear rim, Spider rim, Rimless, or Daisy Petal rim). Photos of these rim styles can be seen at www.comtecindustriesltd.com. 3) The crust thickness dimensions, in writing. If no crust thickness dimensions are provided, the crusts formed by the die set will be nominally 1/8 inch (0.125") thick.

For a Top Crust Forming Die Set: 1) A choice (Yes or No) of a 1 inch diameter vent hole in the center of the top crust 2) The exact diameter needed for the top crust. Please note that top crusts are usually larger in diameter than the pies they are to cover. An accurate diameter must be provided by the customer to ensure that the top crust will fully cover all filled bottom crusts for a particular pan. Many of our customers who are current making top crusts by hand, can measure the diameter of 5 of the hand made top crusts and use the average of the 5 diameters as the measurement you give to Comtec. 3) The crust thickness dimensions, in writing. If no crust thickness dimensions are provided, the crusts formed by the die set will be nominally 1/8 inch (0.125") thick.
